## FULL STACK DEVELOPER

I have extensive experience as a Full Stack Developer, working on diverse projects that honed my skills in backend and frontend development. This background enables me to approach problems with clarity and create efficient, user-focused solutions tailored to project needs.

## EDUCATION & CERTIFICATIONS

### Computer Programming

Anadolu University  
2022 - Current

### Full Stack Developer Certificate

TechPro Education

### ASP.NET Certificate

BTK Akademi

## EXPERIENCE

### Lmxai

May 2024 - Oct 2024

### Backend Developer Intern

I contributed to the backend development of an AI-powered project designed for schools. My responsibilities included implementing authentication processes and managing features like course statistics. The project utilized Django Rest Framework and PostgreSQL to ensure efficient and scalable solutions.

## PROJECTS

### Photo Store | 2024 January

Next.js - Full Stack - <https://photo-store-delta.vercel.app/>

This project is a user-friendly platform where you can upload your photos, mark them as favorites, and manage your collection with ease. It includes authentication features to ensure secure access and personalized usage, making it perfect for organizing and safeguarding your photo library.

### Travel Project | 2024 April

ASP.NET Core MVC - MSSQL

Travel agency project
